UMAKANT BHENDARKAR Full Stack Developer (MERN)

+91 9588418970 | umakantbhendarkar94@gmail.com | LinkedIn | GitHub | Bangalore, 560076

TECHNICAL SKILLS

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, TanStack Query, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, RBAC, MVC Architecture, Socket.IO, BullMQ
- **Database & Cache:** MongoDB, MySQL, Redis
- **Cloud / DevOps / Media:** AWS EC2, AWS S3, AWS CloudFront, Nginx, Linux (Ubuntu), GitHub Actions, FFmpeg, HLS
- **Tools & Integrations:** Git, GitHub, Postman, Bruno, Visual Studio Code, Razorpay

PROFESSIONAL EXPERIENCE

Amika Softwares

Jr. MERN Stack Developer Dec 2024 – Dec 2025 | Nagpur, India

- Built and delivered **15+ full-stack modules** for **E-commerce**, **Insurance CRM**, and **Hospital Management systems**.
- Strengthened backend workflows by implementing validation, access control, and consistent error handling across modules.
- **Optimized MongoDB queries**, indexing, and backend workflows, reducing API response times by 30%.
- Integrated **5+ third-party** APIs and services, improving business process efficiency by 20%.
- Worked on application deployment using **AWS EC2** and managed media storage with **AWS S3**.
- **Collaborated with clients** to understand business needs and deliver solutions aligned with project goals.

React Developer (Intern) Jun 2024 – Dec 2024 | Nagpur, India

- Built modular and responsive user interfaces in **React.js** with a focus on reusability and clean component design.
- **Connected 25+ backend APIs** to frontend screens and ensured smooth data handling across multiple features.
- Improved screen consistency by structuring frontend flows and UI behavior in a more organized and reusable way.
- Delivered user-facing features by converting product requirements into practical and functional frontend implementations.

PROJECTS

Acadex LMS Platform (Personal Project) May 2026 – Present

- Built a scalable LMS with separate teacher and student modules using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Developed secure **JWT**- and **RBAC**-based APIs for course, lecture, payment, and protected playback workflows.
- Implemented **AWS S3** presigned uploads with **BullMQ** and **FFmpeg** for **HLS** video processing and streaming.
- Integrated **CloudFront** signed playback and **Socket.IO** for secure delivery and real-time lecture status updates.
- Integrated **Razorpay** payment gateway, **Redis caching**, **TanStack Query**, and enrollment-based course access.
- Deployed the platform on **AWS EC2** with **Nginx**, **PM2**, **HTTPS**, and custom domain configuration for production use.

Gram Panchayat Information Portal (Freelance) Jul 2026 – Present

- **Independently** designed, developed, and deployed a responsive Gram Panchayat website.
- Showcased village budget details, government schemes, public notices, and development initiatives.
- Implemented **downloadable** birth and marriage certificate formats for citizen services.
- Developed a **mobile-friendly** interface to improve accessibility for citizens across devices.

EDUCATION

Master of Computer Application (MCA) Nov 2021 – Sep 2023 | Nagpur, India

Inter Institutional Computer Centre, RTMNU Nagpur

Bachelor of Science (Computer Science) Jul 2017 – Sep 2021 | Nagbhid, India

Rashtrapita Mahatma Gandhi Arts & Science College, Nagbhid
